

Eye Tests

An Orthoptist will soon be attending school to offer eye tests to all children in the **Reception Class**

All children whose parents/carers have **not** declined consent for this test will be screened in school.

The Orthoptist will test the childrens' eyes to be sure they are seeing properly and that the eyes are working together as they should.

A letter will be sent home to all parents with the results of the test.

There will be a contact number on this letter for any queries.
