23 September 2019

Dear Parents/ Carers,

This year the Government is introducing the Year 4 Multiplication Check. This will happen in June nationwide and monitor pupils' times tables progress.

The expectation is that children know all their times tables up to $12 \times 12 = 144$.

Quick recall of times tables is essential and will really help children with their maths work in class.

In school we practise times tables daily through quizzes, chanting and games.

We ask that parents/ carers practise times tables daily at home too. Little and often works best!

We will continue to send home times table sheets with the tables we are concentrating on, as well as weekly homework. We will also send home times table quizzes that we have done during the week showing any gaps in knowledge.

Finally, we will be running parent workshops during the year. More to follow!
